

# Leadership Orleans

*We believe in: Pride in the Community - Collaboration - Informed Decision-Making - Community Betterment*

The mission of Leadership Orleans is to create the nucleus for investment in the community through continuing education, volunteerism and networking, to enhance leadership potential throughout our region. Leadership Orleans is a seed for growing leaders for today and tomorrow.

Leadership Orleans is a new and exciting year-long educational program focused on building leadership skills while exposing participants with awareness, experiences, knowledge and individuals who work for the betterment of the community. Leadership Orleans is following in the footsteps of hundreds of community leadership programs across the region, state and country.

For more than forty years, community leadership programs have been helping to create leadership skills that springs communities into positive action. Orleans County has joined this national movement and we invite you to be part of the journey.

Sessions include retreat sessions, stimulating activities, community experts and tours. All sessions are presented in an **adult experiential learning** environment around topics of ethical leadership capacity building, servant leadership, economic and workforce development, agribusiness, community health, culture and arts, diversity, education, tourism and recreation, and the public sector.

## Program highlights:

- Participants meet for thirteen full days throughout the year.
- The program helps individuals assess their leadership style and ways to relate to other styles.
- Each class will have twenty-five individuals from all walks of life.
- Admission is based on the application and a personal interview.
- An applicant should have the full support of their business/organization who will be sponsoring them (unless applicant is applying privately).
  
- Applications are due by November 1st.
- Tuition is \$1,950.00.
